Career Profile

I am a 22-year-old computer science student at the Ionian University of Greece, currently in my final year of studies. I have a keen interest in software development, computer networks, big data, and artificial intelligence. Additionally, I thoroughly enjoy working with backend technologies, which form an integral part of my interests and skill set. I am passionate about pursuing a career in this field and hope to contribute as a valuable team member. I strive to maintain a strong work ethic and am determined to find optimal solutions to challenges. Lately, I have been working on a project that implements some deep learning algorithms to improve a recommendation system that I have built. You can find more about my projects in my Github profile.
